

Trail of Painted Ponies Celebrates 10 year Anniversary

Enesco is proud to be a partner with The Trail of Painted Ponies. We appreciate all the retail and collector enthusiasm that has made these miniature works of art become one of the most highly sought after collectibles in the market today. We are looking forward to many more years of continued success with The Trail of Painted Ponies. In addition to our 6" figurines, we have now expanded into a new 4" collection known as the Happy Trails collection that is priced perfectly for gift giving.

Enesco was excited to help The Trail of Painted Ponies celebrate their 10 year anniversary at the Atlanta gift show. Rod Barker, Founder/CEO and Karlynn Keyes, President of The Trail of Painted Ponies, joined by retailers, celebrated with a champagne reception including a drawing for ten limited edition and signed figurines valued at over \$800.
